

Hi, I'm Yamil Pedroso - Full Stack Developer.

ABOUT ME

I am a Full Stack Developer with over 5 years of experience in designing and building scalable, responsive, and user-centered web applications. My work combines a strong technical foundation with a passion for digital art, allowing me to bring both functionality and creativity into every project. I continuously engage with new technologies and best practices to stay at the forefront of modern software development. I am also actively improving my German skills to collaborate more effectively within multilingual and multicultural teams.

SKILLS

Frontend

React
Angular
TypeScript
JavaScript
HTML
CSS
Tailwind CSS
Three.js
Next.js

Design

Figma
Photoshop
Illustrator
Digital Art

Backend

Node.js
Django
C#
Python
Ruby
Rest API

DevOps

Docker
Kubernetes
Git
Github
Gitlab
Netlify
Vercel

Databases

MySQL
NoSQL

Architecture

Design Pattern
MVC
Monolith
API REST
Serv/func

EXPERIENCE

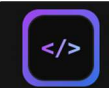

Principal Frontend Developer

Squib Ltd - Luzern Switzerland

2022 - 2025

Developed and maintained the web application's user interface as frontend developer using React, TypeScript, and CSS, implementing responsive design to ensure a seamless experience across devices. Translated product designs and wireframes into high-quality, production-ready code, while integrating and working with the Supabase API for data management and backend communication. Collaborated closely with the Squib team to align technical development with product goals, pushed completed features and fixes to GitHub repositories following version control best practices, and maintained continuous communication with the team via Discord.

Full Stack Developer

Freelance & Own projects

since 2020

Since completing my Full Stack Development Bootcamp at Propulsion Academy in 2020, I have worked as Frontend Developer at Squib Ltd. while also freelancing on diverse projects. Alongside this, I continuously build my own applications, showcased on my website and GitHub. I deliberately choose new technologies to expand my expertise through hands-on practice. My work spans scalable, responsive web applications with React, Next.js, and TypeScript, REST API and Supabase integration, and visually engaging user interfaces.

RECOMMENDATIONS

Marco Eichenberger

Co-Founder, Economist

Yamil consistently delivers high-quality work and collaborates effectively with the entire team, always open to feedback and suggestions. His positive attitude make him a pleasure to work with. I appreciate the value and impact he brings to our project.

Pascal Sonder

Product Designer

Yamil quickly turns my designs into code and everything works as expected, he makes sure the design looks just right and functions well, we work well together, and he always understands what I want, if something doesn't work, he finds a way to fix it without complicating things.

Pascal Pichler

Software Engineer

Yamil is able to follow coding guidelines and produces clean code. I can always count on him to deliver code on time, and it usually needs minimal adjustments.

Claudia Calderone

Manuelle Lymphdrainage Therapeutin

Yamil war für meine Anliegen immer verfügbar und hat zeitnah den Kontakt gehalten um meine Anliegen zu bearbeiten, seine technische und Gestalterische Unterstützung war sehr gut. Das Endprodukt der Website, der gestalterische Auftritt gefällt mir und entspricht genau dem was ich mir vorgestellt habe. Gerne empfehle ich Yamil zum erstellen einer neuen Website weiter.

Reference letter

Mr Yamil Pedroso Cordero joined Squib Ltd. on 01 December 2022 as a Frontend Developer. His flexible part-time commitment corresponds to a 20-30% workload. Squib Ltd. is a software startup developing a next-generation survey tool. Squib is self-funded and not yet generating any revenue.

Yamil's main responsibilities included:

- Developing the User interface of the web using CSS, React and Typescript
- Responsive Design
- Translating product designs into the code and developing
- Work with Supabase API
- Collaborating with Squib's team
- Pushing completed tasks to Github repositories

Yamil possessed very good knowledge of the above applications and brought relevant experience in project management. Thanks to his quick understanding, he was able to familiarize himself with the tasks very quickly. He worked reliably, very independently, and took full responsibility for his work. Even during busy periods, he was always able to set the right priorities.

We appreciated Yamil as a committed and highly cooperative colleague. Thanks to his communicative and authentic nature, he integrated into the team very quickly and contributed significantly to the positive team spirit.

Yamil left Squib at his own request on 30 November 2025 in order to focus on other projects. We very much regret his departure and wish him every success in both his professional and personal future.

Lucerne, 30 November 2025
